

Instruct

Cabin Crew Training Suite

OVERVIEW

CPaT's **Cabin Crew Training Suite** is part of CPaT's Instruct Knowledge Materials, and offers a complete suite of products ideal for **Cabin Crew Training**. Our Cabin Crew Training Suite is market-leading for distance learning in the aviation training industry and is comprised of fleet-specific:

- Aircraft Systems for Cabin Crew
- Cabin Crew Safety Courses and General Subjects
- Interactive 3D Cabin Trainers
- Interactive 3D Door Trainers

AIRCRAFT SYSTEMS FOR CABIN CREW

CPaT's Aircraft Systems courses for Cabin Crew offer the most relevant training, including; Lavatory, Oxygen, Galley, Lighting, Communication, Doors and Exits, and the Flight Attendant Control Panel. Students learn how to identify the components of each system, how to use each system, and how to manage system faults and failures.

- Airbus
- Boeing
- Embraer
- ATR
- Bombardier

CABIN SAFETY AND GENERAL SUBJECTS

CPaT's Cabin Crew Safety Courses and General Subjects cover Safety and other general topic lessons for Flight Cabins.

- Safety Demonstration
- First Aid
- Security
- Dangerous Goods
- Crew Resource Management
- Emergency Procedures

3D CABIN AND DOOR TRAINERS

CPaT's Interactive 3D Cabin Trainers and Door Trainers are realistic, **highly-visual** cabins and doors that are programmable specific to your fleet type and training requirements.
